Adenocarcinoma, Endometrioid, Nos
8380/3 12/9/10
Site Code: Endometrium C54.1

Surgical Pathology

SLIDE DISPOSITION:

DIAGNOSIS:

A. Uterus, bilateral ovaries and fallopian tubes;
hysterectomy and
bilateral salpingo-oophorectomy: FIGO grade I (of III)
endometrial
adenocarcinoma, endometrioid type, is identified forming a
mass (2.9
x 2.5 x 1.1 cm) located in the posterior and left lateral
wall of
the endometrial cavity. The tumor superficially invades
0.3 cm into
the myometrium (total myometrial thickness, 2.2 cm). The
lower
uterine segment is uninvolved by tumor. Lymphovascular
space
invasion is not identified. The margins are negative for
tumor.
The cervix is unremarkable. There are multiple (2)
intramural
leiomyomas (0.5 cm and 0.6 cm in greatest dimension) and a
single
subserosal leiomyoma (0.5 cm in greatest dimension) in the
myometrium. The bilateral ovaries and remnants of
fallopian tubes
are unremarkable.

With available surgical material, [AJCC (7th edition)
pT1bNX].

This final pathology report is based on the
gross/macroscopic
examination and the frozen section histologic evaluation
of the
specimen(s). Hematoxylin and Eosin (H&E) permanent
sections are
reviewed to confirm these findings. Any substantive
changes
identified on permanent section review will be reflected
in a
revised report.

GROSS DESCRIPTION:

A. Received fresh labeled "uterus and bilateral tubes/ovaries" is a 110.0 gram uterus with attached bilateral fallopian tube remnants, ovaries and an unremarkable cervix. The uterine serosa is smooth. There is a 2.9 x 2.5 x 1.1 cm polypoid mass in the posterior and left lateral wall of the endometrial cavity which grossly appears to invade 0.3 cm into the 2.2 cm thick myometrium. There are multiple (2) intramural leiomyomata (0.5 cm and 0.6 cm in greatest dimension) and a single subserosal leiomyoma (0.5 cm in greatest dimension). There is a 2.3 x 1.0 x 0.9 cm right ovary with a smooth outer surface and a solid cut surface with a 0.9 x 0.3 cm right fallopian tube remnant. There is a 2.1 x 1.0 x 1.0 cm left ovary with a smooth outer surface and a solid cut surface with a 0.7 x 0.3 cm left fallopian tube remnant. Representative sections submitted.

BLOCK SUMMARY:

Part A: Uterus, bilateral tubes / ovaries

- 1 Endometrium post wall-1
- 2 Endometrium post wall-2
- 3 Endometrium post wall-3
- 4 Lower uterine segment
- 5 Cervix
- 6 Right ovary
- 7 Right fallopian tube
- 8 Left ovary
- 9 Left fallopian tube
